

You love living in Barrhead; the golf courses, the winter sports and the fabulous outdoors, now if you could just find that gem of a career.... Well, if you have a background in **Maintenance** maybe this is your lucky day. Nestled in Barrhead, Alberta, **GFR Ingredients is a leading-edge manufacturer of plant based raw materials used by so many companies right now.**

We're looking for an **Industrial Maintenance Millwright** to join our team. Our culture is all about innovation (we've won awards), teamwork and we love our social events - Summer BBQ's, paint-ball and river tubing. We also work hard and reward the hard work by awarding monthly draws for overtime and innovation. Add to this the huge growth spurt that the natural food industry is going through and you have a career where the sky is the limit.

Reporting to the Maintenance Supervisor, the Industrial Maintenance Millwright is a full-time position, responsible for installing, inspecting, adjusting and repairing equipment. We need you to maintain all equipment so we can keep making the products our customers depend on us for. Quality repairs with an eye on quick a turn around time is the answer. You're part of a great team so not out on your own but we don't micromanage – you'll be expected to work independently and maintain a high level of accuracy and safety.

What you'll spend your time doing:

- Reading diagrams and schematic drawings to determine work procedures and suggest improvements.
- Installing stationary industrial machinery and mechanical equipment
- Adjusting machinery and repairing or replacing defective parts.
- Ensuring operating safety devices function properly on completion of repairs, modifications and installations.
- Participating in the preventative maintenance program on all equipment for continuous improvement of all machines minimizing downtime.
- Keeping detailed and accurate maintenance reports and documentation.
- Cleaning, lubricating and performing other routine maintenance work on machines.
- Adhering to workplace safety policies, regulations and compliances.
- Maintain a clean and environmentally safe work area

What we hope you bring to the role:

- 2+ years relevant work experience with your tool kit out fixing things.
- Flexible attitude with a desire to make a difference, you love working with a variety of people.
- Strong communication skills both verbally and in writing.
- Ability to work 12 hours rotational shifts.
- Working knowledge of safety standards of equipment.
- Experience using PLC's is an asset.
- Experience of MIG and Stick Welding.
- Experience with pumps and motors.
- Experience with VFD (Variable Frequency Drives).
- Ability to work independently without supervision and meet tight deadlines.
- Physical ability to lift up to 50 lbs.

We value our colleagues and actively strive to provide a respectful, safe and supportive work environment! We also have a competitive compensation package and fully paid benefits.

All of us at GFRI are excited about adding a new **Maintenance Millwright** to our team and we're looking forward to hearing why YOU are the person we need to hire!! Please email it to jobs@gfringredients.com or drop it off in person if you're in the neighborhood.
